PROFESSIONAL SUMMARY

Pre-final year B.Tech Information Technology student with strong foundations in Java and web development. Hands-on experience building Java and TypeScript-based applications using object-oriented principles, input validation, and responsive design. Strong interest in writing clean, maintainable code and applying software development best practices. Comfortable using Git and GitHub for version control and collaboration. Actively seeking software development or full-stack internship opportunities.

EDUCATION

V.S.B. Engineering College, Karur

B.Tech in Information Technology | CGPA: 7.62/10

2023 – 2027

Government Boys Higher Secondary School

Class XII (HSC) | Percentage: 73%

2022 – 2023

TECHNICAL SKILLS

Languages: Java, Python, JavaScript
Web: HTML5, CSS3, Node.js, EJS
Frameworks: FastAPI, Express.js, Nginx

Databases: MySQL, SQL
Tools & DevOps: Git, GitHub, VS Code
Architecture: Zero Trust, OOP

PROJECTS

AI-Enabled Zero Trust Network Firewall

github.com/MANOJ8903/zero-trust-firewall

- Implemented Zero Trust architecture, ensuring every request is verified instead of trusting users or devices by default.
- Designed a threat scoring system (0–100) to classify packets and take actions like allow, monitor, inspect, or block.
- Integrated detection mechanisms for port scanning, malicious IP identification, and abnormal payload behaviour with automated response capabilities.
- Built using FastAPI and Nginx for scalability and efficient deployment.

Smart Curriculum Activity and Attendance System

github.com/MANOJ8903/smart-curriculum-attendance

- Built a full-stack college portal with role-based access for Admin, Staff, and Students, enabling attendance tracking, assignment management, and academic progress monitoring.
- Developed RESTful backend using Node.js and Express.js with MVC architecture, integrated with MySQL relational database for efficient data management.
- Designed dynamic, responsive UI using EJS templating with real-time dashboards displaying attendance percentage, pending tasks, and staff/student directories.

STRENGTHS & SOFT SKILLS

- **Problem-Solving & Analytical Thinking** – Strong ability to break down complex network security challenges and implement systematic solutions using logical design patterns.
- **Code Quality & Best Practices** – Committed to writing clean, maintainable code with proper documentation and adherence to OOP principles.
- **Collaboration & Version Control** – Proficient in Git-based workflows for effective team collaboration and project management.
- **Self-Learning & Continuous Growth** – Actively building mini-projects and exploring emerging technologies to apply concepts in real-world scenarios.
